Active and Inactive JSRs

- In 2008 Active JSRs were defined and identified
 - Active JSR: Publication of a stage update in the last 18 months, including Maintenance and Final Release
 - All other JSRs, except those that have ever published a Maintenance or Final Release are considered “Inactive”
 - 2008 year end, there were 72 Active JSRs and 50 Inactive JSRs; 3 JSRs were reinstated to Active; 1 Withdrew
 - 2009 year end, there were 65 Active JSRs and 51 Inactive JSRs; 5 JSRs added in summer 2009
 - 2010 year end there were 40 Inactive JSRs, for Active JSRs see 2010 Summary (1/2011)

Actions around Active & Inactive JSRs

- All Spec Leads were contacted by the PMO regarding this new category of JSRs in January 2009

- The “Inactive” label was applied to JSRs in February 2009
- Inactive JSR list is updated every 6 months
- Updates made to the Spec Lead Guide and FAQ
- Introduced Inactive state and emphasis on possibility for multiple drafts of stages, encouraged SL to post activity on their Community Update pages
- Once a JSR is Inactive for more than 6 months, the PMO may encourage withdrawal of the JSR
 - Option of Spec Lead, exceptions/circumstances vary
